(excludes those on long-term leave or with unknown status)

## Sex

61%

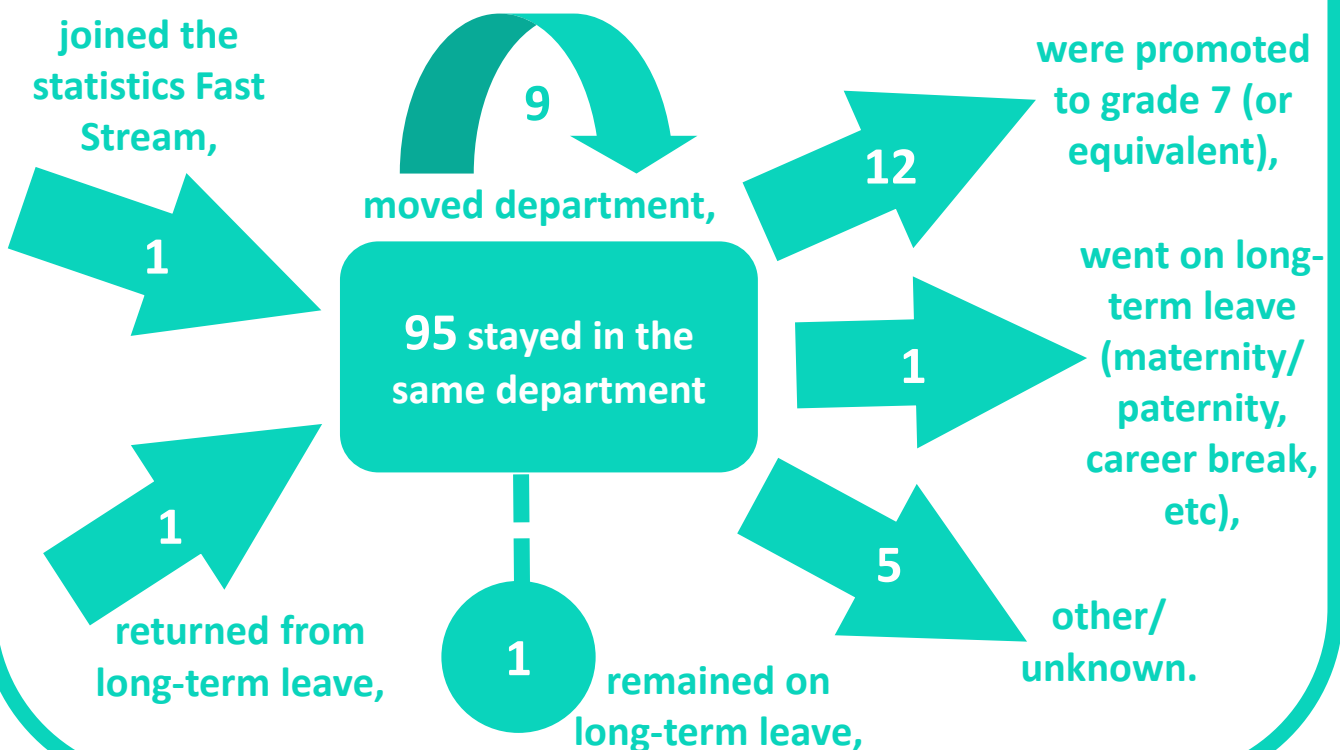

39%

(excludes those with unknown sex)

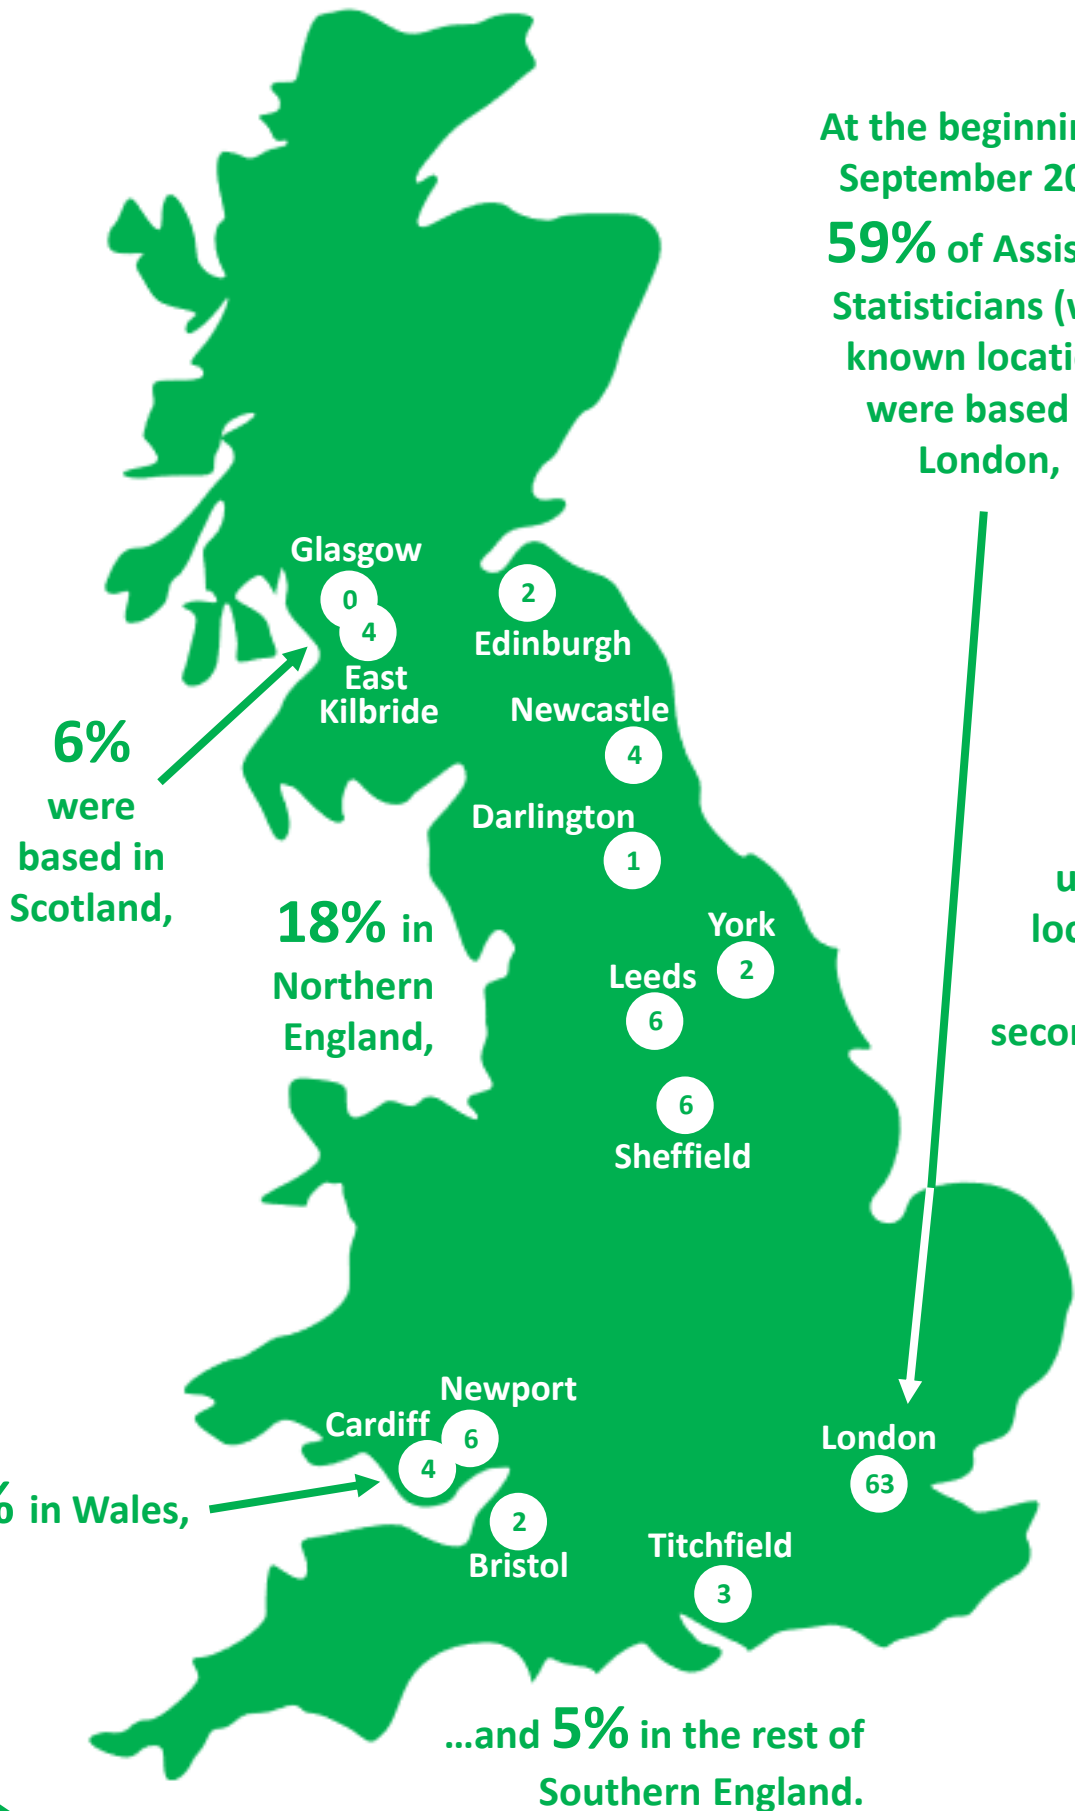

## Joiners, movers and leavers

In the six months to the beginning of September 2016...

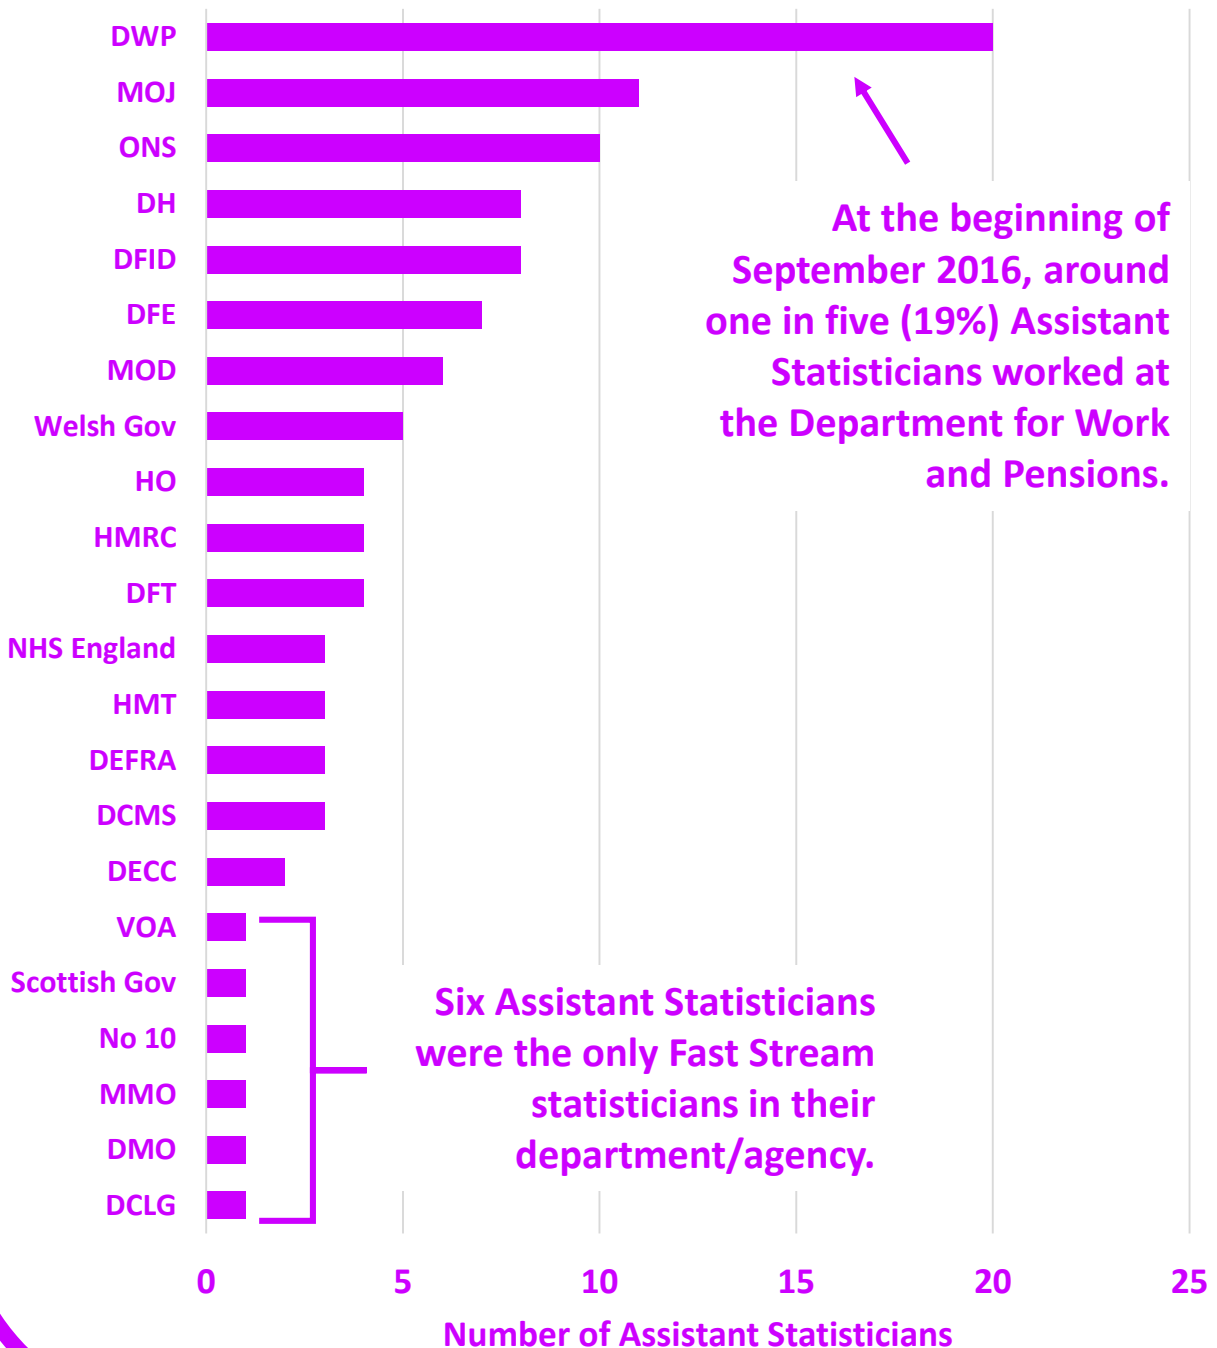

# Location

At the beginning of September 2016, **59%** of Assistant Statisticians (with known location) were based in London,

# Departments

All figures are taken from the Assistant Statistician mailing list, 1 September 2016 and are subject to error. Figures will not exactly match those given previously because of several error corrections.

The six month period quoted was from 3 March 2016 to 1 September 2016.

Total - Assistant Statisticians on long-term leave or who left the statistics Fast Stream are not included in the "in-post" total.

Departments - "Department" in this context refers also to agencies, bodies and other government organisations where Assistant Statisticians have been based.

Joiners, Movers and Leavers - "Other" changes include Assistant Statisticians who left the Fast Stream for other reasons than those covered or left the Civil Service altogether.

Location - Percentages may not sum due to rounding. Croydon is counted with London.
